

Quarterly Financial Report

2nd QUARTER

Six months ended
August 31,

2007

**Manitoba
Public Insurance**

Management Discussion and Analysis

Management's discussion and analysis provides a review of the financial results and future outlook of Manitoba Public Insurance. It should be read in conjunction with the unaudited financial statements for the second quarter ended August 31, 2007 included herein and the annual audited financial statements and supporting notes included in the corporation's 2006 Annual Report. Certain information in this report may consist of forward-looking statements. These statements are based on various techniques and assumptions including predictions about future events which may not occur. Actual results could deviate significantly from the forward-looking statements.

Goal 1

Universally available mandatory protection against the cost of automobile accidents. Rates, on average, will be lower than those charged by private insurance companies for comparable coverage and service.

Why? One reason for our creation was to deliver the best insurance value to Manitobans. This is the essence of our continuing success.

Driving and rating criteria:

- 2003 Chevrolet Impala (4 door, 6 cylinder)
- All Purpose Passenger Vehicle
- \$2 Million Third Party Liability
- \$500 Deductible in Manitoba (similar deductibles elsewhere)

Among the lowest rates in Canada

Goal 2

The Basic plan will return at least 85% of premium revenue to Manitobans in the form of claims benefits.

Why? Over the long-term, returns within this range strike the right balance. We pay back to Manitobans substantially more of their premiums than would private insurers, while keeping a sound financial footing.

Premium returned for each dollar earned

Goal 3

Manitoba Public Insurance will be a leader in automobile insurance and vehicle and driver licensing, providing Manitobans with superior products, coverage and service.

Why? By measuring key performance indicators, we can track the public's view of our performance.

Corporate Performance Index

Goal 4

Manitoba Public Insurance will provide service that is responsive, fair, courteous and convenient. Manitoba Public Insurance will meet corporate customer service standards that are based on customer expectations.

Why? We value our customers and put their interests first. Also, Manitobans expect more from us than from private insurers, because Manitoba Public Insurance is their company. We believe their higher expectations are justified.

Overall, how often do we meet/exceed standards

Goal 4 continued

Customer Satisfaction in Major Operational Areas

Physical Damage Claims

Bodily Injury Claims

Driver and Vehicle Licensing

Insurance Operations Policyholder Transactions

Goal 5

Retained Earnings and Rate Stabilization Reserve will be maintained within established target levels.

Why? Our long-term objective is to break even financially and to be financially self-sufficient. Maintaining the RSR within its target range helps us control rates when claim costs rise substantially. Manitobans deserve stable, affordable premiums over the long term.

Extension Retained Earnings

SRE Retained Earnings

Basic Rate Stabilization Reserve

Goal 6

Manitoba Public Insurance will offer an environment and career opportunities that will encourage employees to strive for excellence. Our people will be treated with respect and fairness and their contributions will be recognized.

Why? We value our employees.

Level of employee satisfaction

Goal 7

Manitoba Public Insurance will lead driver and vehicle safety initiatives that reduce risk and protect Manitobans, their streets and their neighbourhoods. Manitobans will recognize the Corporation is living its mission.

Why? Pursuing traffic safety and loss-prevention programs reflects our long standing commitment to the well-being of Manitobans and to affordable auto insurance. Manitobans have told us they support these efforts.

Public support for road safety

Results of Operations

Manitoba Public Insurance reported net income after surplus distribution of \$80.3 million (2006 - \$65.7 million) for the six months ended August 31, 2007. This includes net income of \$56.9 million (2006 - \$47.8 million) from the Basic Insurance line of business.

Current Year and Last Year

Total earned revenues for the six months increased from the previous year by \$18.5 million. The majority of this increase is attributed to motor vehicle earned revenues which increased by \$16.5 million or 4.5 per cent due mainly to increases in the number and value of vehicles insured. Investment income for the six months increased by \$27.0 million compared to the same period last year primarily a result of higher gains on the sale of equities.

Claims costs for the six months ended August 31, 2007 increased by \$23.8 million or 6.8 per cent compared to last year. Physical damage claims incurred increased by \$16.4 million. A severe hailstorm struck Dauphin and other Manitoba communities on August 9 and 10, 2007 resulting in about 13,000 claims with an estimated value of \$50 million. Manitoba Public Insurance holds reinsurance coverage against this loss which will limit its exposure to \$10 million. Bodily injury claims incurred rose by \$4.0 million as the severity of Personal Injury Protection Plan (PIPP) coverage types, such as income replacement and medical expenses, increased by 10.6 per cent. Contributing to the rise in claims costs was a \$1.1 million increase in loss prevention / road safety expenses which includes reimbursement to customers under the Immobilizer Incentive Strategy and related costs of administering the Immobilizer Incentive Fund.

The corporation has established an Immobilizer Incentive Fund by appropriating \$50.0 million from the Basic Rate Stabilization Reserve (RSR). The fund provides financial assistance for vehicle owners to install electronic immobilizers that meet the Canadian standard, including paying 50 per cent of the cost of the standard installation and providing interest-free financing for the remaining 50 per cent up to five years. In addition, the fund also covers 100 per cent of standard installation costs for vehicles most likely to be stolen, regardless of where in Manitoba they are registered. Activity to August 31, 2007

reduced the fund by \$23.3 million to \$26.7 million. The fund also covers the administrative costs of the program.

In addition, the corporation established on March 1, 2007, the Extension Development Fund (EDF), by appropriating competitive lines retained earnings in excess of the most recent year's target of 200 per cent of the Minimum Capital Test (MCT). The MCT is a risk-based methodology developed by the Office of the Superintendent of Financial Institutions (OSFI) to assess a property and casualty insurance company's financial risk and determines the capital adequacy of reserves held in retained earnings. On March 1, 2007 \$39.0 million was transferred from competitive lines retained earnings to fund the EDF. The EDF is being used to fund service improvements made possible by the merger with the Division of Driver and Vehicle Licensing and that flow through the Competitive Lines statement of operations. Activity to August 31, 2007 reduced the EDF by \$1.6 million to \$37.4 million.

On November 20, 2006, the Public Utilities Board (PUB) released its ruling on the corporation's rate application for the 2007/08 fiscal year. Effective March 1, 2007, overall average Basic Insurance rates were decreased by 2.6%. The PUB also ordered the payment of a 10 per cent premium rebate to all Basic Insurance policyholders based on 2005/06 rates. At February 28, 2007, the rebate was estimated to be \$60.0 million. The amount was actualized during the first six months of the current fiscal year when \$59.8 million was distributed to Basic policyholders.

Transitional Adjustment

Effective on March 1, 2007 the corporation adopted the recommendations of CICA Handbook Section 1530, Comprehensive Income ("Section 1530"); Section 3855, Financial Instruments – Recognition and Measurement; Section 3861, Financial Instruments – Disclosure and Presentation; and Section 3251, Equity. These sections provide standards for recognition, measurement, disclosure and presentation of financial assets, financial liabilities and non-financial derivatives. Section 1530 provides standards for the reporting and presentation of comprehensive income, which represents the change in equity, from transactions and other events and circumstances from non-owner sources. Other comprehensive income refers to items recognized in comprehensive income that are excluded from net income calculated in accordance with Canadian Generally Accepted Accounting Principles (GAAP). These new accounting standards apply to interim and annual financial statements that relate to fiscal years starting on or after October 1, 2006.

The standards require that all financial assets and liabilities be classified as held-for-trading, held-to-maturity, available-for-sale, or loans and receivables. All financial assets, including derivatives, are measured at fair value, except for loans and receivables, held-to-maturity investments and other financial liabilities, which are measured at amortized cost. Changes in fair value for financial instruments classified as held-for-trading are recognized in net income from operations. Changes in fair value for financial instruments classified as available-for-sale are recorded directly in other comprehensive income until the instrument is sold or impaired. Unrealized losses considered other than temporary continue to be recognized as a change in net income from operations.

As required by the new standards, these changes have been applied as a transitional adjustment to Accumulated Other Comprehensive Income (Loss), without restatement of comparative figures.

Retained Earnings

Retained earnings of \$352.5 million (2006 - \$329.2 million) are comprised of \$218.2 million for Basic Insurance (2006 - \$220.9 million) and \$134.3 million for competitive lines (2006 - \$108.3 million). The Basic Insurance retained earnings are allocated to the Rate Stabilization Reserve \$191.5 million and the Immobilizer Incentive Fund \$26.7 million. The Competitive Lines retained earnings are allocated to retained earnings \$96.9 million and the Extension Development Fund \$37.4 million.

Outlook

The corporation remains committed to achieving its seven corporate goals. Actual results will be monitored, and corrective actions taken when necessary, to ensure that expected outcomes are realized.

Current projections indicate the corporation is expected to realize net income from operations of approximately \$34.0 million during the current fiscal year.

On June 13, 2007 the corporation released its 2008/09 Basic Insurance rate application to the PUB which includes no overall average rate change from 2007/08 rates and proposes a 7.75 per cent premium rebate estimated to be \$49.1 million. The PUB is expected to rule on the application in the fourth quarter of the fiscal year.

Notes to Financial Statements

- Certain of the comparative figures have been reclassified to conform with the current period financial statement presentation.
- These interim financial statements:
 - should be read in conjunction with the corporation's 2006 Annual Report including the financial statements and supporting notes.
 - have been prepared following the same accounting policies that are disclosed in the corporation's 2006 Annual Report.
- Effective on March 1, 2007 the corporation adopted the recommendations of CICA Handbook Section 1530, Comprehensive Income ("Section 1530"); Section 3855, Financial Instruments - Recognition and Measurement; Section 3861, Financial Instruments - Disclosure and Presentation; and Section 3251, Equity. These sections provide standards for recognition, measurement, disclosure and presentation of financial assets, financial liabilities, and non-financial derivatives. Section 1530 provides standards for the reporting and presentation of comprehensive income, which represents the change in equity, from transactions and other events and circumstances from non-owner sources. Other comprehensive income refers to items recognized in comprehensive income that are excluded from net income calculated in accordance with Canadian Generally Accepted Accounting Principles (GAAP). The effect of the application of these standards increased the carrying value of investments by \$80,275,000 from \$2,015,010,000 to \$2,095,285,000 at March 1, 2007 to reflect the fair value of available-for-sale financial assets.
